on Online Distance Teaching & Learning

### “ Flipped Learning: Teacher and Learner Experiences ”

July 11, 2020, 2:00-4:30 pm  
via ZOOM with Certificate of Participation

# Opening Prayer

Loving heavenly Father, we come to you this hour asking for your blessing and help as we gather together in this webinar. We pray for guidance in the matters at hand and ask that you would clearly show us how to conduct our work in online distance learning with a spirit of joy and enthusiasm despite this new normal. Give us the desire to find ways to excel in our work. Help us to work together and encourage each other toward excellence. We ask that we motivate and inspire each other on what we share today to reach higher and farther to the best we can be even amidst this challenging times. We ask this in the name of our Lord Jesus Christ. Amen.

# Flipped Learning

Prof Thennie V Mariano  
UP Open University

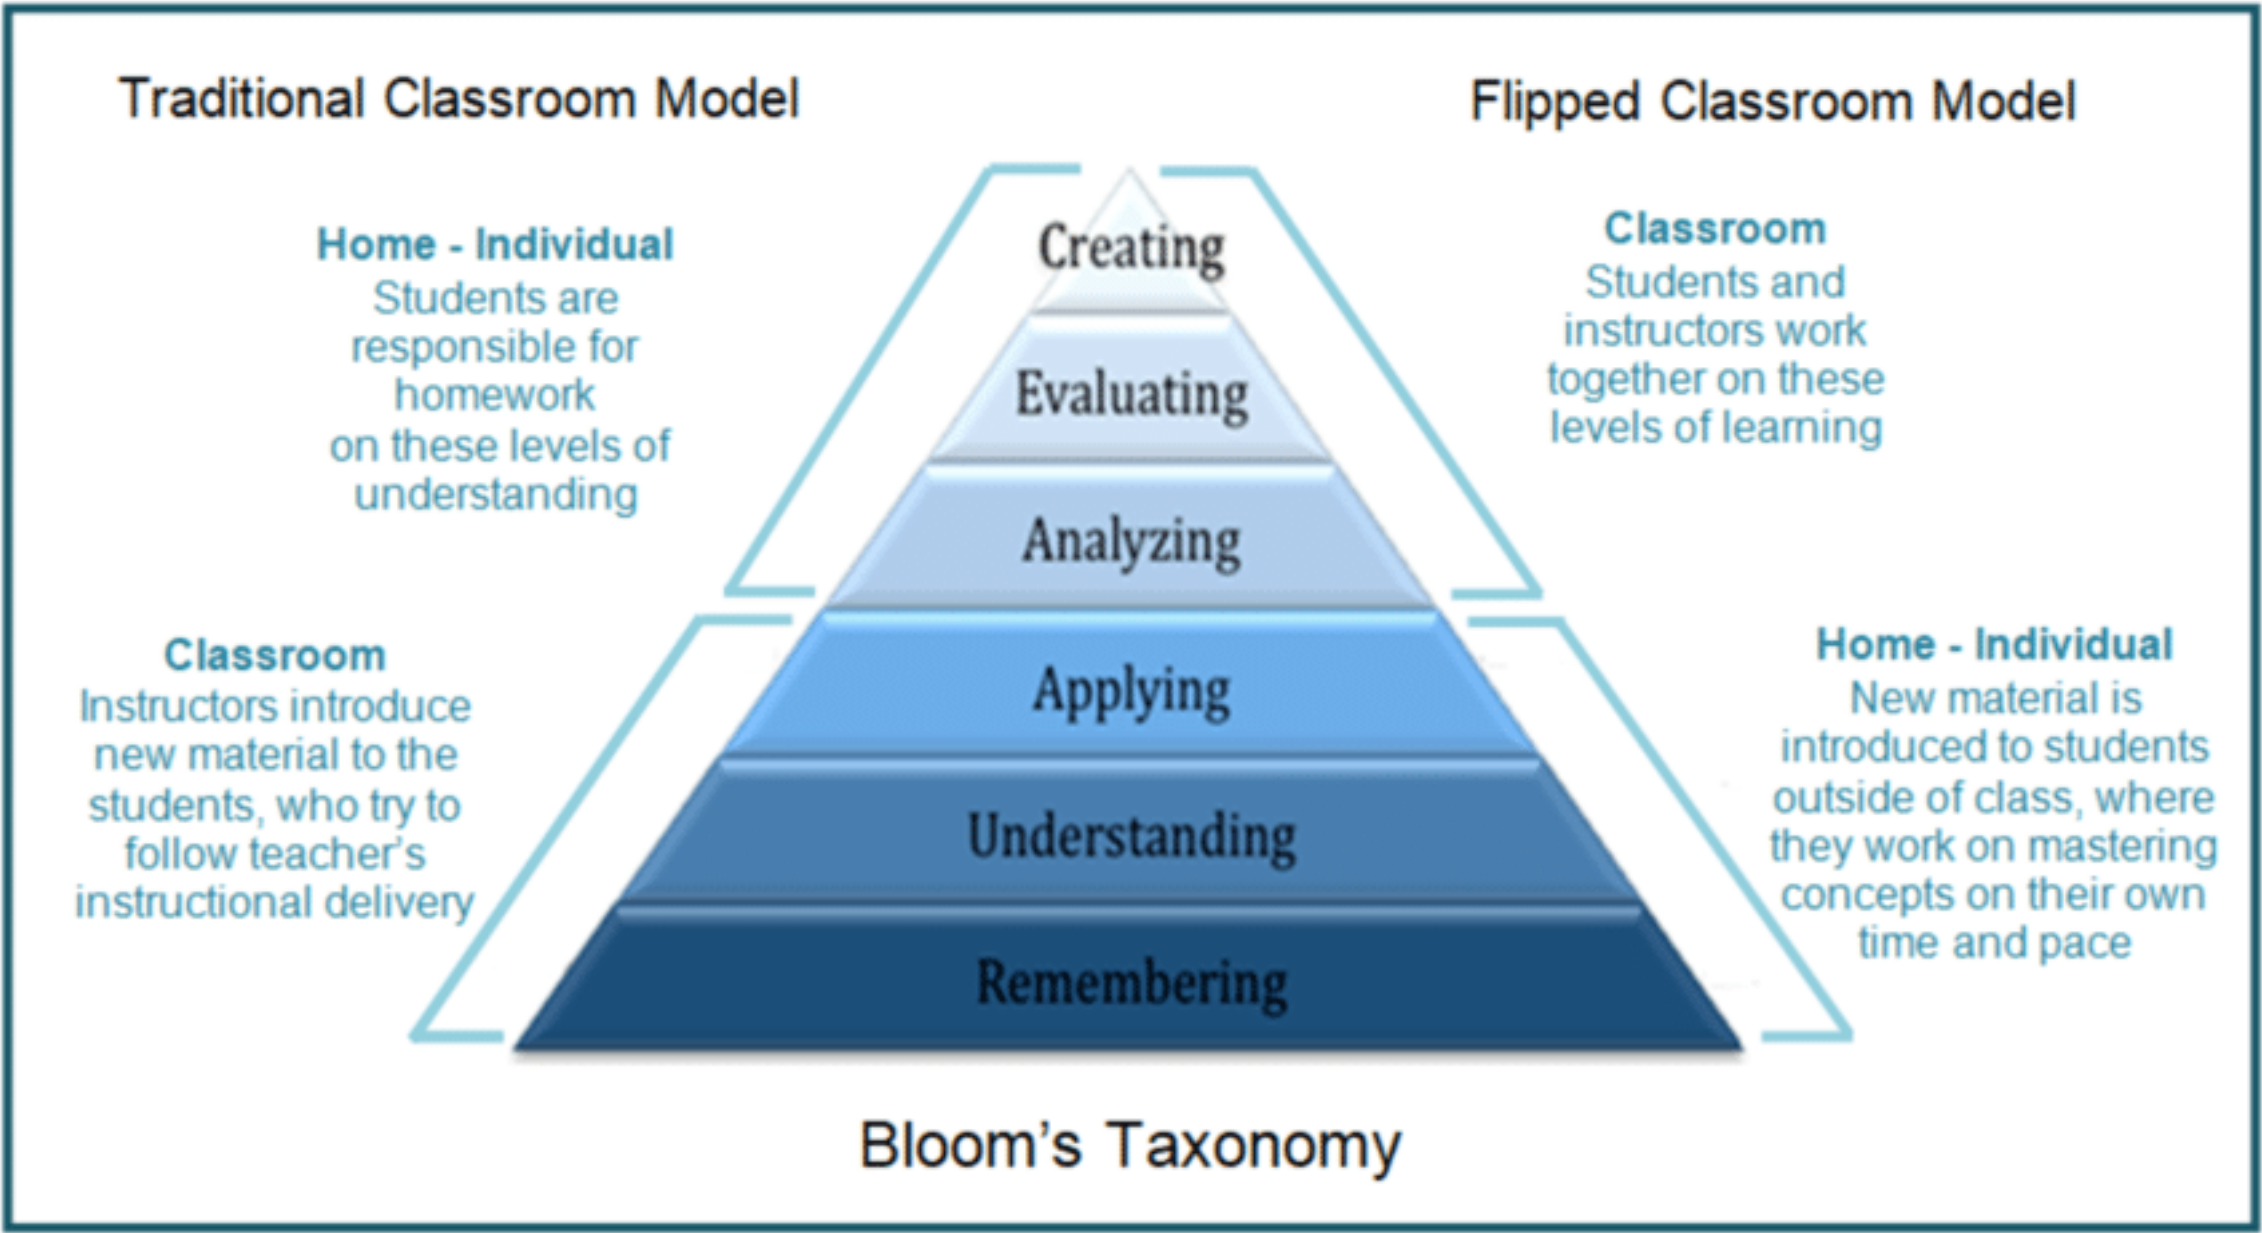

# What is FLIPPED LEARNING?

A pedagogical approach in which direct instruction moves from the group learning space to the individual learning space, and the resulting group space is transformed into a dynamic, interactive learning environment where the educator guides students as they apply concepts and engage creatively in the subject matter.

Source: researchgate.net

# Four Pillars of Flipped Learning

F - Flexible Environment

L - Learning Culture

I - Intentional Content

P - Professional Educator

# F Flexible Environment

Flipped Learning allows for a variety of learning modes; educators often physically rearrange their learning spaces to accommodate a lesson or unit, to support either group work or independent study. They create flexible spaces in which students choose when and where they learn. Furthermore, educators who flip their classes are flexible in their expectations of student timelines for learning and in their assessments of student learning.

<b>F.1</b>	<input type="checkbox"/> I establish spaces and time frames that permit students to interact and reflect on their learning as needed.
<b>F.2</b>	<input type="checkbox"/> I continually observe and monitor students to make adjustments as appropriate.
<b>F.3</b>	<input type="checkbox"/> I provide students with different ways to learn content and demonstrate mastery.

# L Learning Culture

In the traditional teacher-centered model, the teacher is the primary source of information. By contrast, the Flipped Learning model deliberately shifts instruction to a learner-centered approach, where in-class time is dedicated to exploring topics in greater depth and creating rich learning opportunities. As a result, students are actively involved in knowledge construction as they participate in and evaluate their learning in a manner that is personally meaningful.

<b>L.1</b>	<input type="checkbox"/> I give students opportunities to engage in meaningful activities without the teacher being central.
<b>L.2</b>	<input type="checkbox"/> I scaffold these activities and make them accessible to all students through differentiation and feedback.

# I Intentional Content

Flipped Learning Educators continually think about how they can use the Flipped Learning model to help students develop conceptual understanding, as well as procedural fluency. They determine what they need to teach and what materials students should explore on their own. Educators use Intentional Content to maximize classroom time in order to adopt methods of student-centered, active learning strategies, depending on grade level and subject matter.

<b>I.1</b>	<input type="checkbox"/> I prioritize concepts used in direct instruction for learners to access on their own.
<b>I.2</b>	<input type="checkbox"/> I create and/or curate relevant content (typically videos) for my students.
<b>I.3</b>	<input type="checkbox"/> I differentiate to make content accessible and relevant to all students.

# P Professional Educator

The role of a Professional Educator is even more important, and often more demanding, in a Flipped Classroom than in a traditional one. During class time, they continually observe their students, providing them with feedback relevant in the moment, and assessing their work. Professional Educators are reflective in their practice, connect with each other to improve their instruction, accept constructive criticism, and tolerate controlled chaos in their classrooms. While Professional Educators take on less visibly prominent roles in a flipped classroom, they remain the essential ingredient that enables Flipped Learning to occur.

<b>P.1</b>	<input type="checkbox"/> I make myself available to all students for individual, small group, and class feedback in real time as needed.
<b>P.2</b>	<input type="checkbox"/> I conduct ongoing formative assessments during class time through observation and by recording data to inform future instruction.
<b>P.3</b>	<input type="checkbox"/> I collaborate and reflect with other educators and take responsibility for transforming my practice.

“

Reading Comprehension is a **complex process** in which the readers identify basic information and are able to **predict, to infer, to argue** and to **recognize** the writer's points of view.

YUSUF, Q., YUSUF, Y. Q., YUSUF, B., & NADYA, A. (2017). Skimming and scanning techniques to assist EFL students in understanding English reading texts. IRJE | Indonesian Research Journal in Education |, 43-57.

|  
Reading  
Comprehension  
takes **time**.

# Self Assessment! (For improvement)

What topics are my **strongest**? What topics am I **weakest** in?

Are you well-versed in Humanities subjects?

Are you fluent in Science? Business Subjects?

Knowing your strengths allows you to estimate the time needed to tackle a certain reading.

# Self Assessment! (For improvement)

## What level of writing complexity can I comprehend?

In the first study, we compared this framework to an instructional framework emphasizing Strategy Instruction (SI), but not including motivation support. In the second study, we compared CORI to SI and to a traditional instruction group (TI), and used additional measures of major constructs.

# Self Assessment! (For improvement)

**As usual, I was struck by his resemblance to his father, Poseidon. He had the same sea-green eyes, the same dark tousled hair, the same handsome features that could shift from humor to anger so easily. However, Percy Jackson did not favor his father's chosen garb of beach shorts and Hawaiian shirts.**

|

How much time do  
you need?

# Why should I read?

- ★ What is my objective in this reading?
  - Set your objectives! It lets you know what you need.

**Concept  
Definition**

**Opinion  
Formation**

**Idea  
Relation**

# Why should I read?

Knowing your purpose lets you judge pieces of information you need, or pieces needed to be discarded.

# How should I read?

- ★ **Skim and Scan!**
  - But, do it **efficiently.**

**Set a time estimate**

**Follow the Objective**

**Find what you need**
